## CHINESE PROTEST

Natives Desire to Construct the Hankow Railroad With Home Capital if It Is to Be Built.

Peking, May 28.—The opposition or the gentry and other popular leaders in Hunan and Honan provinces to the acceptance by the Chinese government of the Hankow Sze Chuen railway loan | ton C. has not diminished. On the contrary, the anti-foreign sentiment regarding this particular subject is becoming more pronounced.

This extremely hostile feeling was expressed in a startling manner recently. President Sit Chi Tchang of the board of communications received a letter from the leader of the opposition in Hunan province protesting against the conclusion of the loan. The communication was written in the blood of the writer's severed finger.

During the negotiations between the

During the negotiations between the financial groups of the United States, Great Britain, Germany and France, there were occasional manifestations against the government in the two provinces, and the trouble became acute a few weeks before the loan agreement was signed in Paris by the members of the International Banking syndicate. It is generally believed that the violence organized by the gentry and done by the natives at Changsha, the capital of Hunan, was influenced to a considerable degree by changsha, the capital of Hunan, was influenced to a considerable degree by opposition to the acceptance by China of foreign capital and foreign direction in the construction of the Hankow railway line, which influential personages in the province wish to have built, if at all, with Chinese capital.

Holtslaw said he asked no questions, but went back home. Holtslaw detailed his conversations with agents of various desk concerns. On the night of January 17, 1910, the day before the contract was let to the Ford-Johnson company of Chicago, at a figure \$10 higher than the next highest bid, Holtslaw said he visited Otto Freier, sales agent for the Ford-Johnson company, at the St. Nicholas hotel and told Freier it would be worth \$2,500 for him to use his influence in securing the contract for the Ford-Johnson company. He declared that Freier told him that this sum was out of the question; that his company could not afford to

At this time, Holtslaw related, A. B. Johnston of the firm of Johnston-Hatcher of this city, entered the room. Freier then told him he would have to talk to Johnston, and that anything Johnston did was all right. Holtslaw said he told Johnson he wanted \$2,500 for his vote in favor of the furniture contract, and that Johnston declared that he could not pay that much, and that the \$1,500 he offered Holtslaw was \$500 more than any of the members of the committee were getting. The sum of \$1.500 was then agreed upon, so of \$1.500 was then agreed upon, so Holtslaw says. The agreement was made that the money was to be paid when the furniture was delivered and the company had received its money from the state.

Coming down to modern times, he declared that all the power of the city, county, state and federal administrations, under the leadership of Senator Hopkins, Governor Deneen and Mayor Busse, "assembled into a misfit organization," combined to destroy the organization controlled by Lorimer, with intent to give control to the Tribune. He traced his breach with Governor beneen largely to a difference of opinion between the two as to the wisdom of spending independently of action by the national government, the \$20,000,-600 pledged by the state towards the deep waterway to gulf project, which the governor favored and he opposed.

Governor Deneen Accused. He asserted that the governor personally advised in the preparation of the White story. He went on to say:
"The governor joined this campaign of slander because he saw an oppor-tunity to throw dust in the eyes of the tunity to throw dust in the eyes of the people, use the conspiracy to defeat those who stood for federal co-operation in expending the \$20,000,000, and secure control of the next legislature. Why he persists in his efforts to get control of the \$20,000,000 when he well knows that it in itself is not sufficient to construct a waterway is a mystery that I cannot fathom."

Senator Lorimer further attacked the Chicago Tribune's policy in opposition to the Payne-Aldrich tariff, attributing it to its failure to put in the free list what possible relation they bear to the
